REJECTED REPORT.

Course of Study in the High School Will Not Be Changed.

In March the School Board appointed Mr. Clarence L. Sallee, Dr. Thomas E. Pickett, Mr. R. A. Cochran, Miss Fannie I. Gordon, Prof. Berry, Prof. Hutchins, Prof. Reganstine and Prof. Thomas a special Committee to revise the course of study of the Maysville High School.

After diligently and carefully seeking out the best course as it thought, the Committee's report went before the School Board last Wednesday night for final action.

Seven members of the Board were present and upon a yas and nay vote the report was rejected by a vote of four to three.

Yea—Messrs. A. D. Cole, C. L. Sallee and James Piper.

Nay—Messrs. T. Y. Nesbitt, R. A. Cochran, George T. Hunter, S. A. Shanklin.

The course as now used will remain.

UNUSUAL ACCIDENT.

A Fractious Horse Plays Motorneer on Johnnie Gillespie's Car.

Johnnie Gillespie was at the throttle Tother day sailing his car Eastward on Bridge street.

At the intersection of Second street he met Colonel Jim Green, better known as "Crutch," who was driving a somewhat unruly horse.

The horse, jealous perhaps of the displacement of his kind by electricity, began a series of gyrations that would have made a whirling Dervish red, white and blue with envy, finally landing with both feet on the front platform of the car.

Meantime "Crutch" had gotten out of his rig and Mr. Gillespie had wisely concluded that there wasn't room on the platform for both himself and the gymnastic horse.

In his antics on the car, his horseship threw off the brake and turned on the current full tilt, and car and passengers started Eastward at a 2:40 gait.

Among the passengers was Mr. James H. Hall, who promptly took in the situation, grabbed the throttle, shut off the enrrent, put on the brake and brought the runaway car to a standstill, with no other damage than an 18-karat scare to the lady passengers.

Manager Bob Cochran is now puzzled—he doesn't know whether to secure Mr. Hall as Chief Engineer, or to employ Mose Daulton's horse as Motorman.

THE rain having descended heavily upon the unjust in Cincinnati, it is hoped it will soon pour down copiously upon the just in Maysville.

COLLECTOR SAPP and his Louisville gang must be given to understand that Republican Goebelism is just as offensive as Democratic Goebelism.

IF the Republicans of Louisville can't get the offices without resorting to Goebelistic methods, they had better let the other ballot thieves have them.

ONE boy was killed and two were horribly mangled while asleep on the railroad at Maysville. Railroad beds are not especially downy, but a great many people seem to prefer them; and yet there are probably softer beds somewhere in Maysville.—*Cynthiana Democrat.*

But there are none others for which the owners have to pay $10,000 to the uninvited occupants.

IT turns out that an indorsement for the position of Federal Judge for the Indian Territory, now sought by the HON. SAM J. PUGH, was tendered to a gentleman in this city; but as he didn't care to abandon a lucrative practice for a four year's tenure, the matter was referred to a friend in Ohio, from whence it was forwarded to Republican headquarters, where Mr. PUGH'S lightning-rod was found sticking out from the highest point on the roof.

Arrangements are being made by the Navarre Athletic Club of Lexington to erect a coliseum with a seating capacity of 5,000 for the purpose of holding athletic exhibitions and fistic combats.

Prof. M. A. Scovel, Director of Kentucky Experiment Station at Lexington, has decided to begin a wholesale examination of soda water syrup throughout the state. Samples from Lexington fountains have been tested and salicic acid, aniline and other foreign ingredients were found. Prof. Scovel will extend the crusade to other cities and the cases will be prosecuted under the Pure Food Law.

ANSWER IT HONESTLY.

Are the Statements of Maysville Citizens Not Made to Relieve Them Those of Utter Strangers?

This is a vital question.
It is fraught with interest to Maysville.
It permits of only one answer,
It cannot be evaded or ignored.
A Maysville citizen speaks here—
Speaks for the welfare of Maysville.
A citizen's statement is reliable;
An utter stranger's doubtful.
Home proof is the best proof.

"Doan's Kidney Pills are, from the evidence I have, a sure cure for backache. I say this not only from my own experience, but also from that of several others who have received the greatest benefit from the treatment. I suffered from pains in the back, a disordered condition of the kidney, secretions and symptoms of an inflamed condition of the bladder. Procuring Doan's Kidney Pills from J. Jas. Wood & Son's Drug store, corner of West Second and Market streets, they gave me quick and effective relief."

EVE OF CIVIL WAR.

Dr. Rangel Gardiras, With 5,000 Men, in Revolt Against President Castro, of Venezuela.

ARE ON THE COLOMBIAN FRONTIER.

The Government of Venezuela Has Sent 10,000 Troops to the Scene of the Uprising.

Battle Fought Between Revolutionists and Government Troops—Former Completely Routed and Peace Now Prevails.

Willemstad, Island of Curacoa, Aug. 1.—Dr. Rangel Gardiras, at the head of 5,000 men, has revolted against President Castro, of Venezuela. The insurgents are near San Antonio de Tachira, on the Colombian frontier. The Venezuelan government has sent 10,000 troops to the scene of the uprising. The situation is grave. Other outbreaks are expected. The whole country is ready to rise against President Castro. Constitutional guarantees have been suspended and complications with Colombia are feared.

Washington, Aug. 1.—The state department Wednesday received the following telegram from the American legation at Caracas:

"Martial law has been declared in Venezuela by the president of the country in consequence of the invasion of a revolutionary force from Colombia. It is reported that an army of 10,000 men will meet the invaders."

American Interests at Stake.

Up to the hour when the departments closed Wednesday the state department had not called on the navy department for a ship to go into Venezuelan waters. In view of the serious condition of affairs there, the unsettled conditions in the neighboring republic of Colombia, it is not improbable that an American warship will be sent to the scene of trouble for the protection of American interests. If a ship is called for some difficulty might be experienced in finding a suitable vessel for the mission. About the only ship available at this time is the small gunboat Machias, fitting at the Boston navy yard. That vessel, however, would not be ready to sail for about two weeks. There is not a single American warship in southern waters. In case of extreme urgency, one of the battleships now in commission, of course, could be sent.

GARDIRAS ROUTED.

Battle Fought Between the Revolutionists and Government Troops on the Frontier.

New York, Aug. 1.—E. Gonzales Esteves, consul general of Venezuela, said Wednesday night:

"I have just received a cable message from President Castro which says that Dr. Rangel Gardiras has been routed on the Colombian frontier. A battle has been fought between the revolutionists and our government. We have achieved a great victory and Venezuela is at peace. I have received orders to transmit this information to all our representatives in Europe."

Washington, Aug. 1.—Senor Pulido, the Venezuelan charge here, Wednesday afternoon received a message from Gonzales Esteves, the Venezuelan consul general at New York, stating that the revolutionary movement, headed by Dr. Rangel Gardiras, has completely collapsed.

Towns Attacked.

New York, Aug. 1.—A dispatch from Colon, Colombia, says that on Friday night the revolutionists attacked the towns of Pobie, Gatun and Puraiso, took the town officials prisoners, and seized the public funds. The dispatch also says that the revolutionists killed a woman and sacked the Chinese stores.

ROBBERS BAFFLED.

Five Masked Men Held Up a B. & O. Train Near Grand Calumet Heights, Ind.

GOT NO BOODLE FOR THEIR PAINS.

The Desperadoes Dynamited Two Mail Cars Which They Mistook for Express Cars.

Fearing Assistance Would Arrive, the Bandits Made Their Escape Through Thicket of Scrub Oaks —Posse Is in Pursuit.

Chicago, Aug. 1.—The Baltimore & Ohio passenger train from the east, which was due to arrive in the Grand Central depot, Chicago, at 9 o'clock Wednesday night, was held up by five masked men at 8 o'clock Wednesday night between Edgemore and Grand Calumet Heights, Ind., 31 miles out from Chicago. One of the mail cars, which contained no money, was dynamited and wrecked. The attempt at robbery was made after the two mail cars had been detached from the train and run a quarter of a mile ahead. The failure of the robbers to make a rich haul was due to the fact that the express which carried the train's treasure was in an unusual place. It was the third car in the train.

The train was the New York and Washington vestibuled Limited. Most of the trainmen were shot at and had narrow escapes from the bullets. No person was injured either by the dynamite or firearms.

The train was running at a high rate of speed as it passed Calumet Heights, and immediately after passing out of sight of the station, Engineer J. W. Collins saw directly in front of his engine a large fire, on which some rails had been placed. He slowed down, and as he did so three men wearing masks over their faces jumped into the cab and covered Collins and his fireman, James Whipple, with revolvers.

Kept Up a Fusilade.

Just before climbing into the cab the three men commenced to fire with their revolvers in order to frighten away all assistance. The shots produced the liveliest kind of a panic in the sleeping cars, where the passengers made every effort to hide their money and valuables before the robbers could get at them. No attempt was made, however, to rob any of the passengers.

After mounting into the cab of the engine, the robbers, covering the engineer and fireman with their revolvers, made them step down and go back the length of two cars. They ordered the men to uncouple the first two cars, which was done. They then hustled the two trainmen back into the cab, and, still keeping the engineer covered with revolvers, directed him to pull up some distance from the rest of the train.

Buried Dynamite at the Door.

Collins ran up 200 feet and was then directed to stop. He did so, and while one of the men remained to guard him, the others jumped off, and, hurling dynamite at the door of the car which they judged to be the express car, blew it open. Hastily climbing in to get at the safe, they were astonished to find they had broken into a mail car. They threatened the engineer with death for not telling them that the cars which he had uncoupled were not express cars, and ordered him to return at once and uncouple the next car behind the baggage cars. Climbing once more into his cab, Collins backed his engine down, coupled on to the third car, which the fireman was made to uncouple at the rear end, and still with the muzzle of the revolver at his head, Collins was ordered to run down the track as before. He drew away from the balance of the train about the same distance as on the first occasion, and the robbers, still leaving him under the charge of one of their number, made for this car.

Train Delayed Half an Hour.

When they reached it they found to their great wrath that they had attacked another mail car, and that it contained no money. The train had been delayed now fully 30 minutes and, evidently fearing that if they delayed any longer help would be coming to the train crew, the robbers gave up their attempt to rob the train, and jumping down, ran into a thicket of scrub oaks at the side of the track and disappeared. The train was hastily made up and came on to Chicago, arriving here somewhat late, a stop being made at Whiting to report the robbery. Officers went at once sent after the robbers, and within an hour after the robbery a large posse was on their trail.

It is estimated that $50,000 was stored in the express car, and it is believed the robbers knew of the large amount of money and valuables aboard.

SOUTH POLE EXPEDITION.

United States Invited to Co-Operate in Meteorological and Magnetic Observations.

Washington, Aug. 1.—The United States has been invited by the government of Germany, in pursuance of the action of the international congress of geographers, held at Berlin, to co-operate in meteorological and magnetic observations south of parallel 30, south latitude, during the coming south pole expedition, which Germany is about to undertake. The invitation has been turned over to the navy department, and the hydrographic office of that department probably will arrange to co-operate in meteorological observations. The hydrographic office has a corps of voluntary observers all over the world who take meteorological observations each day at noon, Greenwich time, and the hydrographic office will simply supply all information obtained in this way. Both the earth and atmosphere south of 30 degrees south is principally a terra incognita for scientific observations, although the United States became a pioneer in this work when Wilkes' expedition was sent south in 1830. Two expeditions for south pole explorations will leave during the coming month, the one above referred to, which is being fitted out by the German government, and which is expected to remain until 1903, and the other under the auspices of the Royal Geogrnphical society, of London, in the English ship Discovery.

THE SCHLEY CASE.

The Admiral's Counsel Examining the Logs of Ships Engaged in Santiago Campaign.

Washington, Aug. 1.—Capt. James Parker, the ex-naval officer, who is acting as Adm. Schley's assistant counsel, Wednesday continued his examination of the logs of the ships engaged in the Santiago campaign and other official records pertaining thereto. He occupied Secretary Long's office adjoining the bureau of navigation, and by direction of Adm Crowninshield, chief of that bureau who is now acting secretary of the navy, newspaper men and others were not permitted to communicate with him. One of the officers of the bureau remained constantly in the room to see that official records were not tampered with.

Adm. Schley's letter to the department, together with the reply thereto, as soon as the latter is prepared, will be made public.

According to a well informed source here, it was Gallolppi's original information to kill Nicholas, czar of Russia. It is believed here that Gallolppi's arrest is in connection with the attempted assassination of the queen dowager of Portugal.

TO DESTROY MOSQUITOES.

Electrocuse Will Be Largely Used By the Authorities of Havana For That Purpose.

Havana, Aug. 1.—Since the mosquito theory has been generally accepted here as an explanation of the spread of yellow fever the sanitary and engineering departments have given considerable attention to methods heretofore used, especially the value of electrozone as a disinfectant and the advisability of continuing the plant. Both departments report in favor of continuance, as electrozone is a strong deodorizer disinfectant and germicide, and can be manufactured by the government at less than one-third the cost of chlorides. The departments advise reducing the output from 23,000 gallons to 12,000 gallons daily until the work on the sewer begins.

Washington, Aug. 1.—The state department has received from the United States legation at Buenos Ayres telegraphic information to the effect that the state of siege declared in that capital on July 5 by reason of political disturbances has been raised.

STILL UNSETTLED.

The Status of the Steel Workers' Strike Appears to Be Unchanged.

RESULT OF SECOND DAY'S CONFERENCE

Three Members of the Amalgamated Association Board Off on a Secret Mission.

President Shaffer and Vice President Reese Held a Brief Consultation With Joseph E. Schwab in the Carnegie Offices.

Pittsburgh, Aug. 1.—The steel workers' strike against the United States steel corporation is still unsettled, and the status of the contest seems unchanged. The conference of the members of the general executive board of the Amalgamated association Wednesday, which was expected to settle the trouble, adjourned at 9 o'clock Wednesday night without accomplishing its purpose. Another meeting will be called.

It was after 6 o'clock Wednesday forenoon when the committee met. Secretary John Williams, Assistant Secretary M. E. Tighe and National Trustee John Morgan were not present. They left the city Wednesday morning on early trains. Where they had gone and what their mission was could not be learned. President Shaffer was called to a secret conference with some one, supposed to be a representative of the United States steel corporation, during the early morning. After the meeting began its formal proceedings. The discussion was apparently lifeless. Much of the time was spent by the members wandering about the offices of the organization.

Mysterious Missions.

At noon the officials adjourned for lunch. Shortly after 2 o'clock the conference was resumed. President Shaffer was called repeatedly to the telephone and talked long and earnestly with some one at the other end of the line. A recess was taken at frequent intervals, showing that much of the meeting was devoted to killing time during the absence of the officials, who were on mysterious missions. Joseph Elshop, the secretary of the Ohio board of arbitration, was present at the discussions Wednesday. He left the headquarters late in the afternoon without making any statement. At 4 o'clock President Shaffer and Vice President David Reese left the building. To newspaper men President Shaffer said he had nothing to say; that there would be no statement given out Wednesday. The two Amalgamated association officials started in the direction of the Union station, and the rumor at once became current that they were about to leave for New York. Instead the officials made a circuitous route to the Carnegie building, where they held a brief consultation with Joseph E. Schwab and Veryl Preston, who spent most of the day in the Carnegie offices. Within an hour the two Amalgamated men returned to the general offices of the association.

Another hour was spent in the conference room, and the meeting adjourned.

ORGANIZED LABOR.

It Is Rumored That a General Strike of All the Unions Is Imminent in Seattle.

Seattle, Wnsh., Aug. 1.—According to a rumor in organized labor circles a general strike of all unions, which will be as hurtful to business here as in San Francisco, is imminent in Seattle. The men say that cause for a sympathetic strike exists in the fact that the Metal Trades association will not allow their former employes to return to work on any kind of a reasonable basis, doing this simply to destroy unionism.

Will Not Patronize Germans.

Berlin, Aug. 1.—The Kleine Journal learns from the Turkish navy department that the minister of marine has decided not to order any more warships or materials from Germany because of the attacks made upon the sultan in the German newspapers, and owing to the circulation of a false report that the Turkish cruiser Izmir, at Kiel, had been hypothecated.

RUGGLES CAMPGROUNDS.

What Is Going on at That Beautiful Place—Large Attendance.

Special Correspondence Public Ledger.

RUGGLES CAMPGROUNDS, }
Wednesday, July 31, 1901. }

Sunday was a day long to be remembered by the frequenters of Ruggles Campground. The spirit of God was striving mightily with the unsaved and blessing the hearts of the regenerated. Great waves of glory swept over the assembled congregations and the Evil One was greatly incensed at the manifestations of the power of God. How he hates a shout and a prayer and what a wonderful stickler he is for formality! God says the people from the devil's suggestion as to propriety and formality, but preserve them in the dignity and fear of the Lord. Not for years has there been such a meeting at Ruggles Campground. The crowd for the first Sunday was about up to the usual standard, the gate receipts showing this, and we would judge that about 1,500 people were on the grounds. Dr. Iliff is a grand Preacher and all who missed hearing him will regret it, no doubt. He preached for us two days and set the camp on fire. God give us more of such men.

NOTES.

Revs. W. G. Bradford of Shelbyville, N. H. Young of Wallingford, S. G. Sturgell of Germantown and I. E. Price of Manchester are among the new arrivals.

Rev. J. M. Johnson of the M. E. Church, South, of Tolleshoro was with us Monday night.

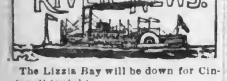
Rev. M. S. Clark of the same Church at Mt. Carmel was among those who enjoyed the service of Monday night.

Seven have been converted and three sanctified up to date. Many are under conviction and striving against the Spirit. May they cease their wanderings and come home to God while the Spirit and the Bride say come!

Rev. D. P. Holt went to the Springs Monday with a party of folks from Bellevue, tenters on the grounds.

Rev. Joseph Faber and his good wife took their departure from among us Tuesday for Flemingsburg. They visit there and then return home to Bellevue.

RIVER NEWS.



The Lizzie Bay will be down for Cincinnati tonight.

The Henry M. Stanley will be up tonight for Charleston.

Only two feet at Pittsburgh, with the water still going down.

The John C. Fisher passed down with a tow of timber for Levanna and Louisville.

The Sunshine now has the Indiana's run while that boat is attanding to the City of Louisville's trade.

The Augusta Chronicle says the steamar Tacoma will be placed on the ways soon for an overhauling, and the Courier will likely re-enter the Maysville trade.

Heavy rains up the river have muddied the stream here considerably, but as our people are good-natured, they are willing to put up with muddy water when they know that the showers have saved the crops in the upper part of the state.

Charles H. Duty, an old Maysville boy, today succeeds Mr. E. E. Abbott as Chief Deputy in Collector Comingore's office at Covington.

Just a while ago Mr. John O'Keefe started his peanut roaster. It sits on the pavement, over the cellar grate bar, which had been stuffed with excelsior to keep out the heat. The fire from the roaster fell on the grating and soon the combustible material was afire. Promptly the watar was turned on and what might have been a serious conflagration was stopped in its incipiency without any damage.

HALL—ORT.

Another Happy Young Couple Wedded Yesterday Afternoon.

At 2 o'clock yesterday afternoon at the home of Mr. and Mrs. Charles Miller on West Second street occurred the formal ceremony uniting the lives of Miss Maud Hall and Mr. Ernie Ort.

A number of relatives and friends were present, and the Rev. W. F. Taylor of the M. E. Church, South, spoke the words that made this young couple husband and wife.

The attendants were Misses Florence Miller and Ida Squires, intimate friends of the bride.

Personally, Miss Hall is a very charming girl. Her bridal costume was of white and she carried Bride roses.

The groom, who is a son of Mr. and Mrs. Henry Ort, is one of Maysville's worthy young men, at present holding a position in the Postoffice.

Mr. and Mrs. Ort left yesterday afternoon for Danville, Ill., where they will visit relatives for a few days, and on their return will take up their residence on Court street.

An Open Letter.

We desire to say that our business since January 1st has passed the mark anticipated. We wish to be frank; therefore we are not attempting to talk to business people and put it in the form of a polished essay. The advantage of having merchandise different from your competitors is apparent, provided that the retailer is known to be reliable. Does not a good deal of advertising appear to you as though the advertisers were indulging too freely in *Fine Words?* Most of them seem to say something that means nothing. Names are invented for goods that have no bearing whatever to the materials; turned and twisted until they are no longer relevant, all of which is done to tone the product, because the product hasn't enough of it. Fine feathers make fine birds, but fine words do not make fine goods. We are strong believers in advertising because it is a good thing, but advertising doesn't pay unless constructed on a proper basis, and that is to plainly tell people what you have to sell, and sell it as low as is consistent with legitimate business methods.

Our spring importation of Dress Goods, White Goods, Carpetings, Mattings and Housekeeping Goods generally is complete. Come and learn prices, which will be found to be as cheap as the cheapest, quality considered. Respectfully,

GEORGE COX & SON.

The Investment Company has taken its place as a permanent institution, and the prejudices that obstructed its early growth are disappearing in the light of experience in its workings. For many months the people of Mason county have been sending over $1,000 a month to be invested in companies at Lexington and other places. Now that we have a Company at home whose plan is the latest and most approved and whose Managers are personally known to you as men of standing and integrity, why not put your investment with them? Patronize your home institution, and your city and county will develop.

There is still a lingering prejudice in the minds of many people against the investment business. This arises largely from lack of information as to the real principles upon which the business is founded.

Our older citizens remember when the first Building Association was started in Maysville. There was a great deal of opposition to it, but it lived down the prejudice and was the forerunner of the three prosperous institutions of that kind in Maysville. The Building Association depends for its success entirely upon co-operation.

Life insurance was a rarity in Maysville in the preceding generation, but now it is difficult to find a man entirely uninsured, who is healthy enough to stand a medical examination.

Life insurance is run upon precisely the same principles as an Investment Company, but pays the profits to the dead man's estate.

Our plan is open to the sick and feeble, to whom life insurance is barred, as well as to the healthy and strong. Don't let prejudice stand in your way because the business is unfamiliar to you, but investigate for yourself, and you like others will be convinced. Call at our office or write to the
